

### FEEDING INSTRUCTIONS:

Introduce gradually over several days. Feed 1 oz. (1 scoop) per day for maintenance. Feed 1.5-2 oz. (1.5 scoops to 2 scoops) per day for performance horses. Recommendations are based on 1,100 lbs body weight. Adjust according to actual body weight. For first 3 to 4 weeks add an extra scoop to daily amount. 1 oz. scoop (28.4 grams) is enclosed.

### CAUTION:

For use in horses only. Consult with your veterinarian before using this product in animals with clotting disorders; being treated with anticoagulant medications; diabetes; or any metabolic disorder causing hyperglycemia; history of urinary tract stones; and known allergies to shellfish. If lameness worsens, discontinue use and contact your veterinarian. Administer during or after the animal has eaten to reduce incidence of gastrointestinal upset.

### WARNINGS:

For animal use only. Store out of reach of children and other animals. In case of accidental overdose, contact health professional immediately. Not for animals intended for human consumption. Keep product in the closed container in a cool, dry location.
